The privilege extends to my clients; unfortunately not to outside counsel. Documents like your inquiry are Agency records once received. The email is in our record center here in Denver.

Mia,

I was hoping that directing my questions to legal counsel would not open this up as a public document. Can I withdraw the inquiry? Where is this posted currently?

Thanks

Greg Ericksen

Hi Greg. I returned your call a few moments ago to answer any remaining questions you might have.

Please note that, as I mentioned to your office manager, the correspondence that is attached below is not a confidential document.

This is due to federal government transparency concerns and privilege regulations. Any correspondences that you send regarding this matter are available to the public.
